

**Business Owner:** My name is Angeles Felix but feel free to call me "Angie".

**I began my business:** I acquired "Dental Associates of Cumberland" in February 2007, after practicing in Dominican Republic, Boston and Providence for about 10 years.

**When I'm not at work:** I'm usually trying new ways for our family to have fun; stuff as simple as, playing cards, renting a movie (which ends up being a Disney one for some reason) or going to Southwick Zoo, Story Land, (You guessed right! I have kids!)

**These are a few of my favorite things:** Getaways (especially to Punta Cana), Chocolate, dancing to anything, singing worship songs on my guitar. But my true joy is watching my daughters grow so gracefully!

**Something nobody knows about me:** I almost always sing to my patients while I work and they love it! (Or so they say...) I didn't always want to be a dentist. I wanted to pursue a career in the arts but my dad thought I was too much of a dreamer, so I followed my aunt's career path. She helped me understand that dentistry is an art and I fell in love with it. No doubt, I'm a chocoholic! (Shhh... Don't tell!)

**I think my business is amazing because:** I'm really honest when I say I love to save and restore teeth back to what they should look like, but the truth is that every time we write a sympathy card, we hear anyone lost their job, got divorced, got married, got a baby, got a birthday, etc. I am reminded of what an amazing family we are and what an impact we can have on their lives and that dentistry is only part of it all. I hope to be a positive influence to everyone: My team and my patients.
